2014 COMMUNITY NEWSLETTER – SUMMER EDITION

Greetings & Blessings to all!

Hope you are enjoying the warm summer days. Have fun, relax and keep safe.

Our Newsletter will highlight activities during the last fiscal year. Accordingly, we include for information, the 2013/14 Annual Reports which were presented at the LHCC Annual General Meeting on June 20, 2014.

Governance

Board Report

"We must be silent before we can listen.

We must listen before we can learn.

We must learn before we can prepare.

We must prepare before we can serve.

We must serve before we can lead."

William Arthur Ward

"Opportunities are like sunrises

If you wait too long, you miss them."

William Arthur Ward

One of the Board's most important tasks is the yearly review of our Strategic Plan.

This is the document in which we describe:

- Who we are, our history and our ongoing ties with The United Church of Canada;
- The Mission Statement and Values which reflect our Christian faith;
- Who we serve, locally and afar;
- What we do, the services and procedures we provide, a list of our achievements;
- A situational analysis of the social, economic and political factors;
- How we meet the health needs of our Community by ensuring the availability of skilled health care professionals, a well educated Staff and maintaining a strong partnership with Alberta Health Services, on whom we depend for the major portion of our funding.

There is also the recognition of the importance of enhancing our relationships with and expressing our appreciation for, the ongoing support of the many Volunteers, the Auxiliary to LHCC, the various clubs and organizations, churches and nearby industries.

And finally, paramount to the whole process is planning for and managing our future. For example, we are well aware of the deficiencies of the older long term care facilities. What are the options? Renovate or rebuild? What resources are available? What is the assessment of

our partners? Along a similar vein, is the shortage of parking for Residents of Morley Young Manor. As we project the delivery of services, what new technologies and techniques need to be considered? What training is required for personnel and so on.

In order to implement the Strategic Planning process effectively and efficiently, it is absolutely essential that the Board is provided with a wealth of accurate and insightful information. This is where the various Board Committees come into play. Each Committee is comprised of representation from the Board, Administration and pertinent Staff. The Committee studies the information brought to it, carefully considers the various factors and brings its findings and recommendations to the Board for decision.

The Finance Committee, chaired at present by Connie Newgard, includes 3 Board members, Executive Director Harold James and Director of Finance Jim Burger. These folks examine the financial statements and the statistical information, looking for indications of change or trends. The Board members also choose half a dozen accounts to check for irregularities.

The Board has decided that all its members should serve on the patient Care Committee along with the Nursing Care Coordinators from Acute Care/ER/OPD/Education Denise Warawa, Long Term Care Karen Carter, OR/CSR Kim Pshyk, a representative of the Medical Staff, Dr. Zainool Mohamed (chief of Medical Staff) and Executive Director Harold James, under the guidance of Chairperson Trudy Harrold (Board member). The members of this Committee assess the overall experiences of the Patients and Residents by reviewing their concerns, observations, needs and expectations as expressed in response to the 200 Surveys distributed to consenting Patients each quarter, in seven areas/Departments. Long Term Care Resident/Family and Morley Young Manor Resident Surveys are conducted annually in December. The Survey responses provide valuable information and insight to the Board in

Mission Statement

We believe that wholeness of body, mind and spirit is God's will for every person.

We are committed to the healing process, the promotion of health
and the provision of compassionate care to all persons.

2014 Community Newsletter – Summer Edition

Governance - Board Report – continued ..

its desire to improve overall quality, increase safety and provide an outstanding and exemplary standard of care/service. All the Survey results are shared with the Department Supervisors and respective Staff who appreciate receiving the complementary remarks.

The Joint Conference Committee, comprised of the Active Medical Staff, the Executive Director and three Board members, meets twice yearly. Highlights of the Medical Staff and Board meetings are presented to the Committee and areas of concerns, if any, are discussed. Purchase of new equipment and/or technology and their relative merits is often a subject of discussion. The position of the Chair is alternated between the groups (Board/Medical Staff) each meeting.

The Buildings and Grounds Committee meets semi-annually to discuss property related issues and make a visual assessment of the property. Three Board members, the Executive Director and the Maintenance Supervisor Robert Sawchuk make up the membership. They consistently have a significant list of repairs and improvements which they prioritize and bring to the Board for consideration.

The Centennial Committee consists of all Board members and Department Supervisors. This Committee is currently considering various items to be deemed appropriate to include in a 'time capsule'.

The Green Health Care Committee, our newest Committee, also includes all of the Board, Department Supervisors and Executive Director. Each Department is in the process of evaluating their methodologies and product usage with an eye to environmental best practices. All Staff is being asked to participate with their suggestions. Although the 44 solar voltaic cells were installed prior to the formation of the Committee, their contemplated future expansion will come under its mandate. The Board is grateful to SHELL Canada Limited for financing the initial \$50,000.00 cost and looks forward to continuing the partnership in the proposed expansion of the project. We shall be looking to local industry in the Heartland to partner with us in future green initiatives and other improvements.

As you can see, all our Committees are integral to our ongoing successes. Wherever possible, they meet in tandem with our regular Board meetings to minimize costs and support our concern for environmental responsibility.

All of these endeavours and more, help to make our Strategic Plan a living document. Our Board spends a good deal of its time listening to the words, observations, suggestions and sometimes criticisms of Patients, Residents, Staff and Community and we do try very hard to respond positively within the periphery of our values, exercising the responsible stewardship of our resources.

Kent Harrold, Board Chair

Operational Matters

Executive Director's Report

Good morning and a warm welcome to you!

There is a saying that, 'time and tide waits for no man' and how true this is!!

The past year has gone by so quickly which leads me wondering – where have I been??

In any event, as I reflected on the past year, I am reminded that,

'Kindness in words creates confidence;

Kindness in thinking creates profoundness;

Kindness in giving creates love.'

Author unknown.

I would like to take these words further and suggest that kindness as expressed in our values of respect, dignity and compassion is a reflection of who our Staff are, in the work they do and in the delivery of care and service to our Patients and Residents; truly a tribute to all (Staff, Physicians & Volunteers) who continue to make a difference in the lives of others.

Words cannot express how thankful our Nursing Care Managers, Supervisors and I are to all who commit to the profession of care and caring.

Staffing

Managing and recruiting Staff in the current environment presents its challenges since we live in an industrial corridor where the lure and promise of high wages/salaries is more attractive especially to the younger generation. However, through careful planning and utilizing various methods of recruitment including our proximity to Edmonton, our facility has managed to attract and retain Staff who wishes to make a long career in Health Care.

We have also managed to complement professional registered nursing staff with 'travel nurses' for short periods of time. This has allowed us to manage vacation, sick time and special leaves in a manner which has not compromised the level of care provided to Patients and Residents.

Staffing in Long Term Care has its own unique challenges; the funding envelope provided is extremely tight and therefore some creativity in the use of resources is a constant in order to avoid a large operating deficit in this Department.

Services

There have not been any significant changes in service delivery this past year. Medical and surgical programs have remained constant. We are supported by five Active Physicians on staff whose Medical Offices are located on the Ground Floor of the Archer Building.

The surgical services are supported by six Active Consultants and a number of Family Physicians with training in Anaesthesia. The volume of surgical procedures performed at Lamont has remained constant;

Operational Matters – Executive Director’s Report – continued ..

we do have room for additional capacity; however, resources for an enhancement in surgical capacity is limited at this time.

Dr. M. Hoque has given up performing Stress Testing in our facility; however, Dr. A. Bharmal, an Internal Medicine Specialist with interest in Cardiology and Stress Testing has filled the void.

Foot and Ankle Surgery is a growing specialty at Lamont; ENT, Cataract Lens Implants, Gynaecology and General Surgery (including Endoscopy) have found their niche within the scope of services offered and I anticipate that these surgical services will, in large measure be part of the core of services offered to our communities.

Emergency Services have grown slightly as the demand for timely Emergency Care and the needs of our growing community changes. Generally, the wait-times for Emergency Care is less than an hour; however, on occasion the wait time can be much greater than the predicted hour due to unforeseen events in the Emergency Department.

Capital Equipment

The need to replace equipment is constant because of changes in technology and obsolescence.

This past year we expended over two hundred and fifty thousand dollars (\$250,000.00) in new and necessary equipment in order to ensure that the care and service provided to Patients and Residents is not compromised. Special thanks to Alberta Health Services and countless donors for providing the required resources to make these purchases possible.

Samples of such purchases included:

Wheelchairs	IV Pumps
Nurse Call System (upgrade)	Solar Powered System
Overbed Tables	Video Colonoscope
Video Gastroscope	Sigmoidoscope
ECG Machine	Printers, etc.

Quality Improvement

The Health Care System is inundated with quality initiatives in order to meet public and legislative expectations.

These quality initiatives include:

- Compliance with Accommodation Standards
- Compliance with Health Service Standards
- Infection Control & Prevention Standards
- Safety Standards (Patient, Staff initiatives)
- Compliance with Accreditation Canada Standards
- Safe Surgical Practices
- Fire Safety and Emergency Preparedness and others.

The requirements can be exhaustive but they do give an assurance to the public that the care we provide must be done with due diligence and in an open and transparent manner at all times.

Partnership with Others

We continue to work hard in building strong partnerships with Alberta Health Services, Alberta Housing, Lamont County Housing Foundation, University of Alberta Rural Medical Student and Pharmacy Elective Programs, Primary Care Network, NAIT, Lakeland College and others.

These partnerships are important as we strive to relate in a positive and open way with our various stakeholders. Such openness is an expression of public confidence in the provision of care and service offered at LHCC.

Attached for information is a statistical summary which provides an understanding about the scope/volume of services offered to at our community hospital.

Finally, I would like to extend my sincere thanks to the Board for the confidence given to me in fulfilling my role of Executive Director at LHCC. Your trust and support are greatly appreciated. Thank you.

Harold James, Executive Director

Medical Services

Chief of Medical Staff Report

Re: Update on the Development and Changes as seen through the Medical Advisory Committee over the last year.

I extend my thanks to all the physicians and staff of this organization for their contributions to patient care over the year. To the board and the MAC I also wish to express my sincere appreciation for their support.

We have had a very full year with regards to medical care in the Lamont Health Care Centre. Presently we have six programs in our surgical core namely Eyes, ENT, Gynecology and Orthopedic Surgery specifically foot, General Surgery and Hand Surgery.

We have made some changes obviously from previous years when we had a resident general surgeon, Dr. Ray, who we all sadly miss, however his passing has given us the opportunity to broaden our scope of surgery that is done in Lamont. Because of these changes presently we now have ENT consultations available weekly. We also have new orthopedic surgery for feet run by Dr. Ravji. We have Dr. Juta who does hand surgery in addition to Dr. Farooq who does general surgery. The eye programs have not changed much. There have been some significant changes with regards to gynecology. Right now we are focusing on mainly ambulatory patients. This reduces the risk and the burden on the Lamont Health Care Centre. It also improves patient access to specialist care if they need it since they can go directly to a referral Centre rather than returning back to Lamont Health Care Centre for transfer to another centre. This was a recommendation from a review for Dr. Azer which he gladly accepted.

Presently we have two consult clinics namely the Orthopedic Clinic and the Internal Medicine/Cardiology Clinic that was instituted by Dr. Bharmal. This has been received with great enthusiasm by our patients. It has made patient care delivery a lot easier to be able to offer

these services within our facility. This is a direction that I would like to see enhanced in the future.

We also have some outreach clinics namely Mental Health and Respiratory where the practitioners are not based in Lamont but offered as required. We are very appreciative of services offered. We continue to use geriatric telehealth for our inpatients.

The MAC has been quite active in embracing new programs that have been offered through the region namely the Anti-Psychotic Program as well as the Antibiotic Stewardship. Presently all doctors are participating in both and we are also participating in a program of effectiveness for the Anti-Psychotic program. From the joint committee meeting between the staff and the board it came out that we might need some equipment for the emergency department. I have discussed these recommendations with the OR manager and found that we have a Glidoscope available and that it is adequate for our needs. However, the familiarity with its use might be somewhat lacking and I have offered to provide instruction on a one-to-one basis to my colleagues.

With regards to the bladder scanner there definitely seems to be problems when it is not available for use. However because of its infrequent use the cost benefit ratio to getting another unit might not be necessarily advantageous at this time.

We also continue to participate in the Infection Prevention Control Committee and the Patient Safety Committee and continue to provide recommendations with regards to patient care.

With regards to staffing we continue to have five physicians in Lamont, four of which take part actively in emergency care and all of them participate in patient care. The four who continue to do emergency care have also adopted the medical student mentor ship program through the University of Alberta. So far we have had six students pass through our program successfully. They provide a refreshing view point to medical practice in Lamont but at the same time we feel that we can offer them a vastly superior experience than they could get at any other teaching institution because of the one-to-one access that they have both to the physician as well as to the patients in the hospital. Obviously they have been quite appreciative of this fact. We will continue to accept students for the following year if we are able.

With regards to staffing within the Lamont Health Care Centre, as physicians, we find that management has provided adequate staffing to enable us to continue our patient care as previous. We do need to take part in the social activities of the hospital namely the Staff Barbeque as well as the Board of Managers Breakfast which is greatly appreciated by all.

Once again I thank you for the support that we have received during this year.

Dr. Zainool Mohamed, Chief of Medical Staff

Medical Services – continued ..

Medical Services are offered by a core group of Active Physicians who operate their private Clinics on the Ground Floor of the Archer Building.

A number of Physicians on the Courtesy Medical Staff work in partnership with Surgeons at Lamont in order to assist at Surgery and to provide Anaesthetic Services as required. We currently have on Staff:

- 5 Active Physicians
- 10 Active Consultants (Ophthalmologists, ENT Specialist, Gynaecologist, General Surgeons)
- 9 Courtesy Staff
- 2 Podiatrists (one of whom is a Foot & Ankle Surgical Specialist)
- 1 Dentist
- 1 Optometrist
- 1 Radiologist
- Laboratory/Pathology Consulting Services are provided by Alberta Health Services.

We now have an affiliation agreement with the University of Alberta and will be hosting Medical Students on a one-month rotating cycle throughout the year in order for them to complete a clinical experience in rural medicine.

Students will be shadowing our family physicians during their stay at Lamont.

Lamont Medical Clinic Phone: 780-895-2515
Dr. Ramesh Juta & Dr. Omar Farooq – Specialists in General Surgery

Consult Appointments by Referral Only.

Lamont Family Physician Clinic Phone: 780-895-5910

Clinic Days & Hours: **Tuesday 9:00 a.m. – 3:00 p.m.**

Emergency Services

A reminder to Residents that the **Emergency/Out-Patient Department** is open **daily (including weekends and statutory holidays)** between the hours of **8:00 a.m. and 8:00 p.m.** A Physician is on-call for emergency services. The Emergency Department is opened for use of Patients needing Emergency Services only; e.g. severe trauma, chest pain, acute respiratory distress, severe allergic reactions and other medical emergencies. Patients requiring non-emergency care may be referred to their family physician.

Please note that Residents requiring access to Emergency Services after 8:00 p.m. are reminded to attend Fort Saskatchewan Health Centre, St. Joseph's General Hospital (Vegreville) or another community hospital which offers 24-hour Out-Patient/Emergency Services.

Notwithstanding the above, if you or an Ambulance should visit the Emergency Department after 8:00 p.m. because of a life-threatening emergency, a **Nurse** will assess your condition and will provide advice about treatment options or request the presence of the **Physician on-call for immediate treatment if required and deemed necessary.**

Ambulance and other emergency vehicle traffic can access the Emergency Department on the West side of the Main Entrance via 52nd Avenue and North on 54th Street.

Remember you must visit/attend the Emergency Department in person after hours; simply calling the hospital after 8:00 p.m. may not provide an answer to your problem and you may be asked to visit the nearest Emergency Department. If you require advice call **HEALTH Link Alberta.**

HEALTH Link Alberta Health advice 24 hours a day
Call toll-free 1-866-408-LINK (5465)

You never know when you'll need immediate health advice or information. That's why Health Link Alberta is available to you **24 hours-a-day, 7 days-a week**. One call will connect you to a Registered Nurse who can answer your questions and give you sound advice whenever you need it because health needs don't keep office hours. Current reports indicate that the Health Link is serving a very useful purpose.

Visiting Specialists

Obstetrician/Gynaecologist Dr. S. Azer

Foot/Ankle Surgical Specialist Dr. Karim Ravji
Appointments with Dr. Azer and Dr. Ravji are by Referral Only.

Stress Testing Dr. A. Bharmal
Ophthalmology Dr. R. Harris, Dr. M. Kutzner & Dr. K. Gill

Appointments with Dr. Bharmal, Dr. Harris, Dr. Kutzner and Dr. Gill are made through their respective Offices.

ENT Specialist Dr. V. Velmurugiah
Appointments by Referral Only Phone: 780-579-1717
Clinic Days & Hours: Thursday & Friday
8:00 a.m. - 4:00 p.m.

The ENT Clinic is located in LHCC across the hallway from the Diagnostic Services (Laboratory/X-Ray) Department.

Other Health/Medical Services

Podiatry – Dr. D. Gibbs

Visits are made at least monthly. No referral necessary. Please phone the Lamont Health Care Centre Business Office at 780-895-2211 if you wish to access this Service.

Prosthetics & Orthotics Clinic

Bouma Orthotic Clinics and Troppman Prosthetics Ltd. have partnered with Lamont Health Care Centre to hold clinics for those persons requiring these services. Appointments can be made by calling:

Troppman Prosthetics 780-438-5409
Bouma Orthotic Clinics 780-417-7008

Massage Therapy – Ms. Shauna Moore, a Massage Therapist, continues to provide Massage Therapy Services to residents of the community. Appointments can be made directly with Ms. Moore by phoning 780-996-4297.

Lamont Vision Centre Phone: 780-895-2770

The Optometry Clinic is located on the Ground Floor of the Archer Building.

Clinic Days & Hours: Monday through Friday
Dr. Scott Lopetinsky
Tuesday & Thursday 9:30 a.m. – 4:00 p.m.
Friday 9:00 a.m. – noon.

Lamont Dental Clinic – located on Main Street Lamont (next to Alberta Treasury Branch)

Dr. Dorothee Saleski - Dentist

Clinic Days: Tuesday through Friday
Clinic Hours: 9:00 a.m. – 5:00 p.m.
Telephone: 780-895-2566

Alberta Heartland Primary Care Network (AHPCN)

The AHPCN is located on the Ground Floor of the Archer Building.

Telephone: 780-895-2022

Referrals are accepted from Lamont Physicians or one can phone directly for an appointment.

Services include:

- Mental Health Support
- Senior Health Assessments
- Diabetes Support and Education
- Weight Management & Education
- Pre-Diabetes
- Women's Health
- Pharmacist Support
- Physical Activity & Exercise Counselling
- Nutrition Support and Education.

Alberta Health Services – Home Care/Community Health, Rehab Services, Mental Health & Addiction Services

These Services are available from the Lamont Health Unit which is located in the Archer Building of the Lamont Health Care Centre. Residents requiring access to these Services may call 780-895-2211 and ask for Home Care, Community Rehab or Mental Health & Addiction Services.

Smoking

Lamont Health Care Centre is a designated smoke-free facility (Hospital & Grounds). Residents on the Long Term Care Unit are allowed to smoke in a designated smoking area. Acute Care Patients are not given the privilege of smoking in the facility. We ask those who need to smoke, to do so at least 5 metres away from all doorways and building entrances. Please refrain from smoking in the Front Entrances.

Once again, we encourage all community patrons/patients and visitors to respect the 'no smoking' signs as posted.

Parking

Community patrons are reminded to observe/obey the parking signs around Lamont Health Care Centre. Please do not block the Main Entrances, Fire Hydrant or any other marked areas. Vehicles found in these locations will be towed away at owner's expense.

Parking – continued ..

Patrons are also asked to turn off running engines since the engine exhaust is taken into the regular ventilation system. The exhaust can be very nauseating to Patients, Residents, Staff and Visitors.

Patrons who attend Lamont Medical Clinics are requested by the Town of Lamont to park only on the left side of 54th Street or for that matter on all streets leading to the facility. Also please note that the West Parking Lot is designated for Staff parking only; visitors are asked to park along the public streets.

Volunteer Corner

Volunteers play an important role in our hospital volunteering their talents to assist Residents and Patients with various activities. These include recreational support, bus outings, reading, directing patients to various services, walking Residents, etc.

Anyone who has an interest in serving at our Community Hospital is invited to contact Ms. Wendy Horricks at 780-895-2211; she will be pleased to offer a tour of the facility and also discuss areas of interest where one can play a significant role in the care and service offered to our Residents.

We know that Volunteers do not replace Professional Staff; however, Volunteers' presence is a very valuable asset as they interact and build relationships with Patients/Residents. These relationships offer a unique experience in fostering Patient/Resident satisfaction and bringing smiles to the lonely and disenchanted.

You can make a difference and we invite you to take the first step.

Please note that the Auxiliary of the Lamont Health Care Centre is recruiting new members and extends an invitation to the public to join the organization. The reward is the giving of one's self in service to others. Men, women and youth are welcome to join. For further information please contact Ms. Sheila Vilcsak at 780-895-2971.

Donations

We encourage community support of monetary gifts, memorial donations and/or bequests to Lamont Health Care Centre.

Donations are used to enhance the care and service provided and are directed toward the purchase of capital equipment and various Patient/Resident comforts or other specified purposes.

We acknowledge with sincere thanks and appreciation the following donations:

by Sigrun Jones (Jones' Greenhouse).	

This year the 2nd Annual Dr. Ray Memorial Golf Tournament will be held on *Saturday, August 23rd, 2014* at the *Fort In View Golf Course*. The event (registration) commences at 8:00 a.m. and ends with a banquet at 5:00 p.m. We invite members of our community to participate. Come and enjoy the event with friends, socialize and help raise funds for the purchase of surgical equipment. For further details, please access the event's website at lhccgolftournament.com. A tax receipt will be provided for those wishing to make a cash donation. Cheques can be made payable to "Lamont Health Care Centre".

Thank you.

Sincerely,

Board, Administration & Staff

Ability is what you're capable of doing. Motivation determines what you do. Attitude determines how well you do it.
